### 2019 Demographic and Socio-Economic Profile of North Dakota State Legislative District 27

This profile is part of a series highlighting population, household, social, and economic characteristics in all 47 state legislative districts in North Dakota.

CSR | Center for Social Research at NDSU
January 2019

#### District 27

**Total Population, 2017**
- North Dakota: 19,227 people
- United States: 745,475

**Median Age, 2017**
- District 27: 30.0 years
- United States: 35.1

**Ages 0 to 17, 2017**
- District 27: 20.7% of 3,979 children
- United States: 22.9%

**Ages 65 and older, 2017**
- District 27: 9.4% of 1,803 people
- United States: 14.4%

**Total Households, 2017**
- District 27: 8,596 households
- United States: 311,525

**Average Household Size, 2017**
- District 27: 2.22 persons per household
- United States: 2.63

**Householders Living Alone, 2017**
- District 27: 32.4% of 2,785 households
- United States: 31.1%

**Average EITC Credit, 2014**
- District 27: $2,104
- United States: 987 households

**Associate's Degree or Higher, 2017**
- District 27: 55.5% of 6,680 people
- United States: 42.4%

**Moved in the Past Year, 2017**
- District 27: 30.8% of 5,795 people
- United States: 17.7%

**Ages 3 to 4 Enrolled in Early Education, 2017**
- District 27: 48.5% of 409 children
- United States: 33.4%

**People With a Disability, 2017**
- District 27: 6.9% of 1,320 people
- United States: 10.7%

**Median Household Income, 2017**
- District 27: $66,084
- United States: $61,285

**Low Income, Below 200% of Poverty, 2017**
- District 27: 21.0% of 4,000 people
- United States: 25.9%

**Children <6, All Parents Working, 2017**
- District 27: 88.3% of 2,052 children
- United States: 70.7%

**Ages 0 to 64, No Health Insurance, 2017**
- District 27: 4.5% of 792 people
- United States: 9.3%

Definitions, notes, and data sources on page 2 (over)
Definitions and Notes

**Population Characteristics**

**Total Population**: This indicator reflects the total number of residents.

**Median Age**: This indicator represents the central age point of the resident population. It is reflected in years and divides the population into two equal parts: half the population is older than the median age and half is younger.

**Ages 0 to 17**: This indicator reflects the number of residents ages 0 through 17 as a percent of the total population.

**Ages 65 and Older**: This indicator reflects the number of residents ages 65 and older as a percent of the total population.

**Household Characteristics**

**Total Households**: This indicator reflects the total number of occupied housing units.

**Average Household Size**: This indicator reflects the average number of people living in each household.

**Householders Living Alone**: This indicator represents the number of households occupied by a single person living by themselves as a percent of all households.

**Average EITC Credit**: This indicator reflects the average credit received among householders (i.e., tax filers) claiming the federal Earned Income Tax Credit (EITC), in dollars. The EITC is a refundable tax credit for working individuals and couples (particularly those with children) who have low to moderate income. The amount of EITC benefits depends on a recipient’s income and number of children. The EITC reduces the amount of taxes owed and may also result in a refund.

**Social Characteristics**

**Associate’s Degree or Higher**: This indicator reflects the number of adults ages 25 and older with an Associate, Bachelor, Graduate, or higher-level degree as a percent of all persons ages 25 and older.

**Moved in the Past Year**: This indicator reflects the number of local residents ages 1 and older who moved from a different house in North Dakota (from within the same community, from a different community, or from a different county), from a different state, or from abroad within the past year, as a percent of the total resident population ages 1 and older.

**Ages 3 to 4 Enrolled in Early Education**: This indicator represents the number of children ages 3 and 4 enrolled in public or private early learning programs as a percent of all children ages 3 and 4. Early learning programs include any group providing educational experiences for children during the years preceding kindergarten (e.g., Head Start, child care preschool, early childhood special education, or a school district prekindergarten program). Places where instruction is an integral part of the program are included (e.g., a preschool license through child care), but private homes that primarily provide custodial care are not included in these data.

**People with a Disability**: This indicator reflects the number of people, of all ages, living with some form of a disability (i.e., difficulties with vision, hearing, ambulation, and cognition) as a percent of the total civilian noninstitutionalized population.

**Economic Characteristics**

**Median Household Income**: This indicator represents the central income point of the total number of households, including those with no income. The median is reflected in dollars and divides the number of households into two equal parts: half of households have incomes above the median household income and half have incomes below the median.

**Low Income, Below 200% of Poverty**: This indicator reflects the number of people with a household income below 200 percent of the federal poverty level as a percent of the population for whom poverty status is determined (i.e., people living in group quarter facilities and institutions are excluded). This population includes persons living at or below poverty (i.e., at or below 100 percent of poverty) as well as persons living close to or ‘near’ poverty (i.e., between 100 and 200 percent of poverty).

**Children <6, All Parents Working**: This indicator represents the number of children ages 0 through 5 living in households where all the parents are in the labor force, as a percent of all children ages 0 through 5.

**Ages 0 to 64, No Health Insurance**: This indicator reflects the number of persons ages 0 through 64 with no health insurance coverage as a percent of the total civilian noninstitutionalized population ages 0 through 64.

**Householders Living Alone**: This indicator represents the number of households occupied by a single person living by themselves as a percent of all households.

**Average EITC Credit**: This indicator reflects the average credit received among householders (i.e., tax filers) claiming the federal Earned Income Tax Credit (EITC), in dollars. The EITC is a refundable tax credit for working individuals and couples (particularly those with children) who have low to moderate income. The amount of EITC benefits depends on a recipient’s income and number of children. The EITC reduces the amount of taxes owed and may also result in a refund.

**Associate’s Degree or Higher**: This indicator reflects the number of adults ages 25 and older with an Associate, Bachelor, Graduate, or higher-level degree as a percent of all persons ages 25 and older.

**Moved in the Past Year**: This indicator reflects the number of local residents ages 1 and older who moved from a different house in North Dakota (from within the same community, from a different community, or from a different county), from a different state, or from abroad within the past year, as a percent of the total resident population ages 1 and older.

**Ages 3 to 4 Enrolled in Early Education**: This indicator represents the number of children ages 3 and 4 enrolled in public or private early learning programs as a percent of all children ages 3 and 4. Early learning programs include any group providing educational experiences for children during the years preceding kindergarten (e.g., Head Start, child care preschool, early childhood special education, or a school district prekindergarten program). Places where instruction is an integral part of the program are included (e.g., a preschool license through child care), but private homes that primarily provide custodial care are not included in these data.

**People with a Disability**: This indicator reflects the number of people, of all ages, living with some form of a disability (i.e., difficulties with vision, hearing, ambulation, and cognition) as a percent of the total civilian noninstitutionalized population.

**Low Income, Below 200% of Poverty**: This indicator reflects the number of people with a household income below 200 percent of the federal poverty level as a percent of the population for whom poverty status is determined (i.e., people living in group quarter facilities and institutions are excluded). This population includes persons living at or below poverty (i.e., at or below 100 percent of poverty) as well as persons living close to or ‘near’ poverty (i.e., between 100 and 200 percent of poverty).

**Children <6, All Parents Working**: This indicator represents the number of children ages 0 through 5 living in households where all the parents are in the labor force, as a percent of all children ages 0 through 5.

**Ages 0 to 64, No Health Insurance**: This indicator reflects the number of persons ages 0 through 64 with no health insurance coverage as a percent of the total civilian noninstitutionalized population ages 0 through 64.

**Economic Characteristics**

**Median Household Income**: This indicator represents the central income point of the total number of households, including those with no income. The median is reflected in dollars and divides the number of households into two equal parts: half of households have incomes above the median household income and half have incomes below the median.

**Low Income, Below 200% of Poverty**: This indicator reflects the number of people with a household income below 200 percent of the federal poverty level as a percent of the population for whom poverty status is determined (i.e., people living in group quarter facilities and institutions are excluded). This population includes persons living at or below poverty (i.e., at or below 100 percent of poverty) as well as persons living close to or ‘near’ poverty (i.e., between 100 and 200 percent of poverty).

**Children <6, All Parents Working**: This indicator represents the number of children ages 0 through 5 living in households where all the parents are in the labor force, as a percent of all children ages 0 through 5.

**Ages 0 to 64, No Health Insurance**: This indicator reflects the number of persons ages 0 through 64 with no health insurance coverage as a percent of the total civilian noninstitutionalized population ages 0 through 64.
